TESTIMONIAL - RACKCORP

To whom it may concern,

Card Access Services (CAS) has been operating in the payment processing industry for over 30 years, catering for a variety of secure payment processing solutions for governments, banks, and enterprise customers.

CAS processes high volumes of financial transactions daily, and has significant personal and legal commitments for the protection of our customer's data, as well as the availability of our services.

RackCorp has provided CAS with a secure, high-availability hosting environment and related services for over 15 years, and continue to be our hosting provider of choice as new products and services are introduced on our platform and to our customers.

We have found RackCorp's services and support to be reliable and of a high standard, which is essential for our business and growth.

We cannot thank RackCorp enough for the great service provided all of these years and please feel free to get in contact if you would like to discuss further.

Best regards,

Stelios Savva
