RackCorp
SECURE CLOUD

IAL INSURANCE CELEBRATES 6 YEARS OF 100% UPTIME WITH RACKCORP'S MISSION CRITICAL CLOUD

IAL

I am pleased to provide a glowing testimonial for RackCorp that IAL Insurance has had the pleasure of working with since 2018. RackCorp has consistently demonstrated their expertise and commitment to delivering outstanding services in deployment, maintenance, support, and communication of our core infrastructure and virtual hosting. From the outset, RackCorp worked closely with our team to understand our unique business requirements and develop customised solutions that meet our needs.

Their attention to detail and willingness to go above and beyond in their service delivery has been a breath of fresh air. RackCorp's exceptional technical skills and knowledge are evident in the smooth deployment and maintenance of our infrastructure. They have consistently provided reliable and secure solutions that have enabled us to focus on our core business operations.

In addition to their technical knowledge, RackCorp's communication skills are second to none. They are always responsive and proactive in keeping us informed of any updates or changes that may affect our infrastructure. Their exceptional support and customer service have been instrumental in our success, and we would not hesitate to recommend them to anyone looking for an IT Infrastructure & hosting provider in Australia.

Their expertise, commitment to excellence, and customer-centric approach make them stand out from the competition.

We thank you for the ongoing commitment and work over the years.

Regards,

Keith Wheeler
Technology Manager,
IAL Insurance
